

Air 1 Radio is broadcast in my area on station 90.1, this station is heard throughout the Inland Empire and offers a positive message to adults and children alike. This Positive alternative music requires no censorship by concerned parents (like myself) the music offers messages of hope, caring and forgiveness. There is no sexual content, reference to drugs, violence, etc. This music is also presented in rock, rap and pop genre that young adults enjoy rather than just the easy listening, gospel songs of many Christian stations. My daughter has had the station on in her room when friends were over (or in the car) and they frequently asked who the band was as they liked the music and the sound. There is not another station like Air 1 and I consider it to be irreplaceable. Please do not allow Air 1 to be interrupted in my own or anyone else's neighborhood.

Sincerely,

Shari Lauda

PS Try listening to this station before you allow it to be interfered with.
